Open Scheduling Summer & Fall 2023

**October 4, 2022—January 16, 2023**

Open Scheduling for the summer and fall 2023 terms is now active! Open scheduling is the start of the scheduling cycle when department schedulers input the classes offered in that term, including specific details such as instructor assignment, modality, meeting pattern, and room preference.

Open scheduling comes with heightened privileges in UAccess Student that allow department schedulers the ability to create and adjust their department's class schedule without needing to use the Section Form request process for Room & Course Scheduling assistance.

The open scheduling period lasts 12–13 weeks and occurs twice per year: April—July for winter/spring open scheduling, and October—January for summer/fall open scheduling. The **RCS Resource Guide** page has a collection of previous scheduling tips to guide department schedulers through common scheduling scenarios.

To brush up on scheduling skills and best practices, review the recording and presentation materials from the recent **Summer & Fall 2023 Open Scheduling webinar**.
Mutually Exclusive and Course Equivalency Attribute Updates

The Schedule of Classes will no longer display the Course Attributes of ‘mutually exclusive’ and ‘course equivalency.’ The goal of the Course Attributes section is to highlight information to help students make enrollment decisions, and by removing these attributes, the student can focus on the information they need.

The Enrollment Requirements section is where mutually exclusive courses include specific anti-requisites. For example, it will be noted that students cannot enroll in Course A if they have previously taken the mutually exclusive Course B. This information will continue to display in the published Schedule of Classes.

SCHEDULING TIP

Section Form Success

Section Forms are a tool used to communicate necessary adds, changes, and cancellations to the Schedule of Classes during closed scheduling. The RCS team has compiled some helpful recommendations (pay close attention to steps 9–13 on the Resource Guide) to ensure the section form includes the necessary information to efficiently process forms in the order they are received.

Section Forms are available for any given term while the term is actively progressing as well as for the upcoming term after the optimization process is completed. Currently, Section Forms for the fall 2022, winter 2022, and spring 2023 terms are available.
